## SAS 2025: Elevating ASEAN's Aerospace Industry

Building upon the legacy of the Selangor Aviation Show, the Selangor Aerospace Summit (SAS) 2025 positions itself as a **strategic ASEAN-centric platform**, featuring a dynamic indoor expo and conference format that spans the entire aerospace value chain – including aerospace manufacturing, MRO, commercial, general, and business aviation, and space-related technologies.

SAS 2025 builds on the success of the Selangor Aviation Show, which brought together global OEMs, regional industry leaders, and local SMEs. The summit will broaden its scope to address key industry verticals, encouraging dialogue on regional supply chain integration, cross-border investment opportunities, and the growth of Southeast Asia's aerospace ecosystem.

With ASEAN projected to be one of the fastest-growing aviation markets, SAS 2025 will place strong emphasis on aerospace talent development, green technologies such as sustainable aviation, digital transformation in manufacturing and MRO operations, and emerging technologies.

As part of Selangor's vision to be the Gateway to ASEAN, the summit aims to catalyse public-private partnerships, strengthen regional cooperation, and position Malaysia as a hub for aerospace innovation and investment in the region.
